Geolam[®]
Architectural Eco-Technology

The World-Class Wood-Hybrid

Geolam Hybrid Aluminum/Wood-Polymer Composite (WPC) Boards offer the warm aesthetics of wood—even up close—without any maintenance. Esteemed worldwide, Geolam is a leader in WPC technology, with thousands of successful installations across the globe.

Unmatched Versatility

Geolam applications are as broad as your imagination. Our products have been used for trims, sunscreens, cladding, soffits, façades and pergolas; for universities, airports, hotels, restaurants and museums worldwide.

Proven Performance

With over 35 years of exceptional performance, Geolam stands out for its durability, versatility, and environmental responsibility. Our WPC boards are manufactured with 0% moisture content, ensuring long-lasting resilience against the elements.

Built to Last

Geolam is designed to excel in extreme conditions, outperforming traditional wood in climates with intense heat, high UV exposure, and elevated humidity levels. Choose Geolam for a wood aesthetic that endures.
